Abhishek Poddar | AI & Cloud Technology Leader | Agentic AI & Automotive Systems

abhishek.poddar.2004@gmail.com | +91-9916135106 | Bangalore, India | linkedin.com/in/abhishekpoddar26 | abhishekpoddar26.github.io

AI & Cloud Technology Leader with 17+ years of experience **delivering $4M+ transformation programs** and building **agentic AI platforms**. Accelerated enterprise modernization by 80% and **reduced costs by 60%** using LLM-driven automation. Expert in scalable systems, cloud architecture, and driving business outcomes through technology.

KEY ACHIEVEMENTS

- Generated **$4M+ revenue** by leading AWS-based data and analytics transformation programs.
- Scaled and led **40+ member cross-functional team** across engineering, architecture, and DevOps functions.
- Built **agentic AI platform** (Concierto Modernize) enabling enterprise-scale app & DB modernization using LLMs.
- **Accelerated delivery by 80%** using agentic AI tools, reducing team size by **60%** and lowering delivery costs.
- Enabled **large-scale ETL** and analytics using AWS AppFlow, Athena, and QuickSight integrations.

CORE SKILLS

AI/ML & LLMs: Generative AI, GPT, Claude, Mistral, Agentic AI Systems
Cloud: AWS (Athena, AppFlow, QuickSight), Azure, GCP
Architecture: Microservices, Distributed Systems, Data Lake
Leadership: Program Leadership, Stakeholder Management, Agile, CI/CD
Tech: Java, Python, SQL, Docker, Kubernetes

PROFESSIONAL EXPERIENCE

Trianz Digital Consulting | Software Development Manager (Technology Leader – AI & Cloud) | Jul 2022 – Present

- Owned end-to-end **client engagement and delivery** for cloud programs generating **$4M+ revenue**.
- **Partnered with AWS** leadership to co-develop connectors for AppFlow, QuickSight, and Athena, enabling ETL.
- Led **end-to-end product development** of Concierto Modernize, an agentic AI platform enabling application and database modernization using LLMs (GPT, Claude, Mistral).
- Architected Concierto Migrate, enabling **multi-cloud and on-prem migration** across **AWS, Azure, and GCP**.
- Delivered Concierto Insights using **Data Lake architecture for enterprise-scale data migration** and **analytics**.
- **Directed a 40+ member global engineering team**, delivering scalable AI-driven platforms at enterprise scale.

Mercedes-Benz R&D India | Technical Program Manager | May 2015 – Jun 2022

- Led delivery of **€2.4M revenue-generating toolchain platform** for 60+ modules with 70+ engineers across globe.
- **Integrated AI/ML models into simulation systems**, improving prediction accuracy and reducing testing cycles.
- **Drove DevOps transformation**, implementing automated CI/CD pipelines across global engineering teams.

MathWorks India | Software Engineer | Sep 2012 – May 2015

- **Developed Simulink platform features**, enhancing modeling and simulation capabilities for enterprise users.
- **Mentored engineers** and contributed to onboarding, improving team productivity and knowledge sharing.

Oracle India | Software Engineer | Jul 2008 – Aug 2010

- **Developed** SQL validation **automation tools**, improving reliability and reducing QA effort for enterprise systems.

EDUCATION

- **IIM Bangalore** – MBA (PGPEM), Strategy, Leadership & Finance (2020–2022)
- **École Centrale de Nantes, France** – MS, Control Systems, Automation & Robotics (2010–2012)
- **IIT Kharagpur** – BTech, Instrumentation & Electronics Engineering (2004–2008)

CERTIFICATIONS

AWS Certified Solutions Architect – Associate | Certified Scrum Product Owner (CSPO) | MATLAB Associate
